Table of contents

Groom Care

Shining Gloss Glamour

Two-phase hair conditioner **Shining Gloss GLAMOUR** for hair care. Thanks to the fruit complex: raspberry, apple, peach, kiwi, papaya, cucumber and strawberry it has a **nourishing, refreshing and polishing effect and detangles the hair**. Thanks to the blend of oils: sunflower, coconut, flaxseed, avocado, argan, macadamia and olives **fully nourishes the hair**. A high content of vitamins and fatty acids condition and **repair dry and damaged hair**. Prevents hair loss. With regular use, it helps to preserve the **natural shine and healthy, beautiful appearance**. Mane and tail become strong and thick, the skin remains moist.

Ingredients: Aqua, Cyclohexasiloxane, Cyclopentasiloxane, Dimethicone, Urea, Sodium Chloride, Glycerin, Cetrimonium Chloride, Helianthus Annuus Seed Oil, Cocos Nucifera Oil, Linum Usitatissimum Seed Oil, Persea Gratissima Oil, Argania Spinosa Kernel Oil, Macadamia Ternifolia Seed Oil, Olea Europaea Fruit Oil, Rosmarinus Officinalis Leaf Extract, Rubus Idaeus Fruit Extract, Fragaria Ananassa Fruit Extract, Actinidia Chinensis Fruit Extract, Pyrus Malus Fruit Extract, Prunus Persica Fruit Extract, Carica Papaya Fruit Extract, Cucumis Sativus Fruit Extract, PEG-40 Hydrogenated Castor Oil, Parfum, Disodium EDTA, Isopropyl Alcohol, Sodium Benzoate, Potassium Sorbate, Methylchloroisothiazolinone, Methylisothiazolinone, CI 16185

✓ **Contains fruits complex and oil complex**

✓ **For unruly hair, requiring impeccable appearance and radiance**

Available capacity

140 ml, 750 ml

Recommended use:

Shake before use! After mixing the phases, apply at a distance of 30 cm. Spray a small amount of the hair conditioner and leave it for a while to absorb it into the hair. Then comb out in the direction of hair growth. The product is suitable for all types of hair. It leaves no stains.

Shining Gloss Vital

Two-phase conditioner **Shining Gloss VITAL** for the daily care of mane and tail. **Not only detangles the hair, but also conditions and protects against negative external influences.** The ingredients have an anti-dandruff and anti-itching effect. The hair treatment **leaves the hair soft and shiny.** The complex of aromatic medicinal plants: lavender, rosemary, salvia and thyme protects the hair and skin and hinders the formation of free radicals. It also works **antibacterial and antifungal.** Tea tree oil and urea **fight the dandruff.** The formula is enriched by the complex of seven conditioning oils that prevent hair loss and protect against the influence of ultraviolet rays.

Available capacity

140 ml, 750 ml

Recommended use:

Shake before use! After mixing the phases, apply at a distance of 30 cm. Spray a small amount of the hair conditioner and leave it for a while to absorb it into the hair. Then comb out in the direction of hair growth. In the case of dandruff, rub a small amount of the product directly on the skin. The product is suitable for all types of hair. It leaves no stains.

Ingredients: Aqua, Cyclohexasiloxane, Cyclopentasiloxane, Dimethicone, Urea, Sodium Chloride, Glycerin, Cetrimonium Chloride, Helianthus Annuus Seed Oil, Cocos Nucifera Oil, Linum Usitatissimum Seed Oil, Persea Gratissima Oil, Argania Spinosa Kernel Oil, Macadamia Ternifolia Seed Oil, Olea Europaea Fruit Oil, Rofficinalis Leaf Extract, Acetum, Glycerin, Lavandula Angustifolia Flower Extract, Salvia Officinalis Leaf Extract, Thymus Vulgaris Flower/Leaf Extract, Melaleuca Alternifolia Leaf Oil, PEG-40 Hydrogenated Castor Oil, Parfum, Disodium EDTA, Isopropyl Alcohol, Imidazolidinyl Urea, Methylchloroisothiazolinone, Methylisothiazolinone, CI 19140, CI 42090

✓ Contains herbal complex
✓ For weak hair, requiring delicate care and protection

Groom Care

Mane&tail conditioner *Shining Gloss*

A two-phase mane, tail, and hair Black Horse **conditioner SHINING GLOSS** for everyday use. Rich in vitamins and minerals composition of elements **helps comb out horsehair and gives it a healthy look as well as moisturizes, nourishes and strengthens horse's mane and tail.** Additionally, selected anti-inflammatory and soothing elements eliminate pruritus and prevent dandruff. The conditioner applied onto washed and dried off hair, mane, and tail leaves an invisible protective film which **prevents dust and gives a natural shine.**

Ingredients: Water, Cyclomethicone, Dimethicone, Cetrimonium Chloride, Urea, Aloe Vera Extract, Methylchlorisothiazolinone (and) Methylisothiazolinone, D-Panthenol, Salicylic Acid

✓ *Two-phase formula*

✓ *Gentle peach fragrance*

✓ *For all types of hair*

Available capacity

140 ml, 750 ml

Recommended use:

Spray horsehair with a small amount of the conditioner at 30 cm distance. Leave it on for a moment so that the conditioner is absorbed into hair then comb out with a brush in the direction of the horsehair coar growth.

Shake before use !

Keratin Bath shampoo

KERATIN BATH shampoo is formulated to restore and strengthen hair structure. Thanks to the special formula with keratin its use **makes the coat and horsehair soft, bright and shiny.** In addition shampoo **protects hair against UV rays and wind.** Thanks to the nourishing and moisturizing ingredients contained in the shampoo, horse hair, mane and tail get a silky shine. The thin lipid film left on hair **protects it against outside conditions, prevents from drying off and dust.**

Ingredients: Aqua, Sodium Laureth Sulfate, Cocamidopropyl Betaine, Cocamide DEA, Sodium Chloride, Glycerin, Lauryl Glucoside, Hydrolyzed Keratin, Polyquaternium-7, Styrene/Acrylates Copolymer, Disodium EDTA, Citric Acid, Methylchloroisothiazolinone, Methylisothiazolinone

Available capacity

500 ml

Recommended use:

As a concentrate: apply to wet horsehair with a sponge or a hand then directly to the dirty areas. Rub it gently until bubbles form then wash off with water.

As a wash down: dilute 30 ml of the shampoo in a bucket of warm water. Apply evenly with a sponge over the horses's skin, mane and tail, rub in gently until bubbles form then wash off with water.

Always remember to avoid contact with eyes and mucous membranes of the horse. Repeat the treatment as often as required always taken into account the health of the horse (especially the conditions and temperature the horse will be kept in after a bath).

Groom Care

Conditioning shampoo for horses

The nourishing and cleaning Black Horse shampoo was formulated specially to condition horse's hair, mane, tail and skin. A carefully selected blend of active components helps the shampoo **gently and effectively remove grime restoring at the same time the regular hydrolipidic balance of the epidermis and horsehair.** Anti-inflammatory and antibacterial elements protect the skin, disinfect micro-injuries, soothe pruritus as well as prevent dandruff. Thanks to the nourishing and moisturizing minerals and vitamins contained in the shampoo the hair, **the mane and the tail of the horse get a silky shine.** The thin lipid film left on hair protects it against outside conditions, prevents from drying off and dust. The Black Horse shampoo does not contain irritant, aromatic substances, therefore **does not irritate skin glands.**

Ingredients: Aqua, Sodium Laureth Sulfate, Glycerine, Cocamidopropyl Betaine, Glycerine, PEG-7 Glyceryl Cocoate, Poyquaternium- 7, Aloe Vera Extract, Sodium Chloride, Cocamide DEA, Methylchlorisothiazolinone (and) Methylisothiazolinone, D-Panthenol, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Citric Acid, CI 42090

Available capacity:

500 ml

Recommended use:

As a concentrate: apply to wet horsehair with a sponge or a hand then directly to the dirty areas. Rub it gently until bubbles form then wash off with water.

As a wash down: dilute 30 ml of the shampoo in a bucket of warm water. Apply evenly with a sponge over the horse's skin, mane and tail, rub in gently until bubbles form then wash off with water.

Always remember to avoid contact with eyes and mucous membranes of the horse. Repeat the treatment as often as required always taking into account the health of the horse (especially the conditions and temperature the horse will be kept in after a bath).

Quick Clean dry shampoo

Quick Clean dry shampoo is excellent for **removal of all stains from horse hair without using water**. Due to contents of active ingredients **it removes stains resulting from mud, grass, urea or manure**. Non-irritant, thanks to soothing ingredients. No need to rinse the horse after application of shampoo, it's enough to just wipe down with a moist rag.

Product recommended for grey, white, piebald, dappled coats.

Ingredients: Aqua, Urea, Hydrogen Peroxide, Polysorbate 20, Sodium C14-16 Olefin Sulfonate, Tetrasodium Etidronate, Phosphoric Acid, Panthenol, Cocamidopropyl Betaine, Cocamide DEA, Meadowfoam Delta-Lactone, Sodium Stearate, Betaine, Hexylene Glycol, Propylene Glycol, Juglans Regia Leaf Extract, Amber Extract, Camellia Sinensis Leaf Extract, Aesculus Hippocastanum Extract, 8-Hydroxyquinoline

Available capacity:

500 ml

Recommended use:

Spray the area in need of cleaning from a small distance, leave the formula on for 3 – 5 minutes, for the active ingredients to soak into the hair. After that time, remove the foam with a dry rag or paper towel. Next, wipe the hair with a moist rag, to remove formula residue. Repeat if needed. Do not leave the formula on for more than 5 minutes.

Shake before use !

during first application**

Groom Care

White Gloss shampoo

White Gloss shampoo is uniquely formulated **for daily care of light colored horses**. Carefully selected blend of active ingredients helps the shampoo to gently and effectively remove grime simultaneously restoring the regular hydrolipidic balance of epidermis and horsehair. Thanks to chamomile extract and lemon extract contained in the shampoo, **it is perfect for care of light colored coat, mane and tail. Shampoo restores their natural color and ensures a silky shine.** White Gloss shampoo does not contain irritant, aromatic substances, therefore **does not irritate skin glands.**

Ingredients: Aqua, Sodium Laureth Sulfate, Sodium Chloride, Polyquaternium-7, Glycerin, PEG-7 Glyceryl Cocoate, Cocamidopropyl Betaine, Cocamide DEA, Propylene Glycol, Chamomilla Recutita Extract, Citrus Limonum (Lemon) Extract, Citric Acid, Methylchloroisothiazolinone, Methylisothiazolinone, Acid Violet 43 (CI 60730)

Available capacity:

500 ml

Recommended use:

As a concentrate: apply to wet horsehair with a sponge or a hand then directly to the dirty areas. Rub it gently until bubbles form then wash off with water.

As a wash down: dilute 30 ml of the shampoo in a bucket of warm water. Apply evenly with a sponge over the horse's skin, mane and tail, rub in gently until bubbles form then wash off with water.

Always remember to avoid contact with eyes and mucous membranes of the horse. Repeat the treatment as often as required always taken into account the health of the horse (especially the conditions and temperature the horse will be kept in after a bath).

Does not cause any irritation

Kashmir Touch lotion

Glossing lotion Kashmir Touch **creates a silky shine on horsehair**. Thanks to the cashmere proteins, **hair becomes soft, smooth and shiny and resistant to external factors**. In addition, lotion protects the hair against UV rays as well as provides proper moisture level of horse's skin.

Ingredients: Aqua, Alcohol Denat., PEG-12 Dimethicone, Amodimethicone, Hydrolyzed Keratin, Parfum, Cetrimum Chloride, Trideceth-12, Octocrylene, Imidazolidinyl Urea, Metylparaben, Propylparaben

Available capacity:

140 ml, 500 ml

Recommended use:

Spray horsehair with a small amount of the lotion at 30 cm distance. Leave it on for a moment then brush in the direction of the hair growth. The effect lasts for several days.

We recommended to wipe horsehair coat with the Black Horse woollen care glove to achieve optimal result.

✓ *glossing effect confirmed in tests*

✓ *long lasting shine*

✓ *nice fragrance*

Muscle Care

Cooling Gel for horses

Exceptionally effective **cooling & regenerating gel for horses**. Rich and refined composition of the Black Horse gel has cooling and pain-relieving properties which **help tired or strained tendons, joints, muscles and ligaments recover**. The gel also eliminates swellings and inflammatory conditions. A blend of D-Panthenol and natural plant extracts **soothes and relieves possible irritation**. The Black Horse gel encourages faster tissue regeneration, and therefore minimizes the time of full recovery of the horse.

Ingredients: Aqua, Glycerine, Propylene Glycol, Menthol, Arnica Montana Extract, Ginkgo Biloba Leaf Extract, Chamomilla Recutita Extract, Coceth-7/PPG-1-PEG-9 Lauryl Glycol Ether/ PEG-40 Hydrogenated Castor Oil, Carbomer, TEA, D-Panthenol, Methylchloroisothiazolinone (and) Methylisothiazolinone, CI 42090

Application tests confirmed that, *Cooling Gel*:

- ✓ cools and relieves affected areas
- ✓ regenerates strains, muscles and tendons
- ✓ speeds up horses's recovery

Available capacity:

500 ml, 1000 ml

Recommended use:

After hard exercise: apply small amount of gel to the affected muscles, tendons and joints right after an intense effort. There is no need to repeat the process until next intense effort of the horse.

In the course of treatment: apply the gel to the injured or painful area in large amounts 2-3 times a day for the period of up to 3 days, unless your veterinarian recommends differently.

Warming Liniment for horses

The Black Horse Warming Liniment for horses **soothes and relieves tired muscles, joints and tendons**. It aids the process of regeneration of the musculoskeletal system, soothes muscle tension and spasms. It also supports the management of arthritis, inflammatory processes and oedema. **Relieves pain caused by strains, loosens stiff joints, improves flexibility of tendons and prevents muscle soreness**. The liniment aids natural recovery by improving the removal and preventing build up of waste products and toxins, such as lactic acid and free radicals in the muscles and joints. **It stimulates circulation, improves the delivery of nutrients and drugs to the affected area, which leads to faster regeneration of the damaged tissue.**

***Ingredients:** Aqua, Alcohol Denat., Camphor, Propylene Glycol, Arnica Montana Flower Extract, Calendula Officinalis Flower Extract, Saponaria Officinalis Root Extract, PEG-40 Hydrogenated Castor Oil, Vanillyl Butyl Ether, Triclosan, Carbomer, Triethanolamine, Xanthan Gum, Methylchloroisothiazolinone, Methylisothiazolinone, CI 19140, CI 42090*

Available capacity:

500 ml, 1000 ml

Recommended use:

The warming liniment is intended for topical application on horses' legs, back, shoulders, flanks and the neck. It can be used as a massage or poultice.

The appropriate amount of product should be applied to a clean area and rubbed in thoroughly. For best effect the area should be covered with a blanket/soft rug or used as a poultice. Keep on for maximum 8 hour. After that time remove the dressing and clean the area.

Do not apply under saddle if you're going to ride the horse straight after treatment. Do not apply to damaged skin. If skin irritation develops discontinue use and consult a veterinarian. Avoid contact with eyes and mucous membranes.

Hoof Care

Perfect Hoof oil

The Perfect Hoof hoof oil is a carefully prepared **composition of oils enriched with vitamin E**. The macadamia and avocado oils included in the product **moisturize and rejuvenate the hoof ensuring elasticity and smoothness**. Paraffin oil prevents fractures and strengthens hoof structure. Thanks to unsaturated fatty acids and vitamins, the oil **protects hooves against the influence of free radicals**. The oily formula makes hooves glisten, **ensuring long-lasting gloss**.

Ingredients: *Paraffinum Liquidum, Persea Gratissima Oil, Macadamia Integrifolia Seed Oil, Tocopheryl Acetate.*

Available capacity:

550 ml

Recommended use:

Put the oil on a clean and dry hoof. Use the attached brush if needed. In order to strengthen hooves and accelerate their growth, it is recommended to massage-in the oil into the walls of the hooves. The lack of colour results in the possibility to successfully use the oil in reference to all hoof types.

Long lasting shine

Nourishing hoof ointment

Rich in the high quality nutrients hoof ointment is **recommended especially for lacking polish, dry, and slowly growing hooves, prone to cracking and brittle horn.** The composition of active elements ensures **proper moisturizing and nourishing of the horn** letting the damaged hoof regenerate and grow more quickly and healthily. The oils contained in the ointment create a protective film ensuring proper lubrication and smoothness of the hoof surface. They **protect them against drying and harmful outside conditions.**

Ingredients: *Vaselinum, Mineral Oil, Linum Usitatissimum (Linseed) Seed Oil, Oleum Ricini Virginale Oil, Equisetum Arvense Extract*

Available capacity:

500 ml

Recommended use:

Apply the ointment evenly on a clean and dry hoof.

In the course of treatment : Initially apply 3 times week.
After 14 days - twice a week in order to keep the result of the treatment.

Preventively: once a week.

*one jar of product is sufficient for
1 year of normal usage*

365

„The hooves after the nutritious Black Horse hoof ointment are nourished and very good looking. The ointment relatively quickly absorbs – you do not need to wait long before leading the horse to the box“

Dominika, owner of several horses

Hoof Care

Sulfate paste for the hoof frog

The Black Horse paste is recommended for horses with **the problem of thrush, weak hoof sole, and horses exposed to damp ground.**

The synergistic effect of copper sulphate, tea tree oil, and salicylic acid allowed to formulate highly effective and comprehensive preparation, which **fights off the problem of thrush but also prevents and strengthens the sole of the hoof.**

Ingredients: *Vaselineum, Cooper Sulfate, Mineral Oil, Linum Usitatissimum (Linseed) Seed Oil, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Salicylic Acid*

Available capacity:

300 ml, 500 ml

Recommended use:

In the course of treatment we suggest using the paste on daily basis - depending on how bad the problem is - for the period of 2-3 weeks. Apply the paste for the night and before taking the horse out in the damp ground.

Preventively: always before taking the horse out in the damp ground or 1-2 times a week for the night.

Apply the preparation directly to the collateral grooves and to the frog surface.

Apply depending on individual tendencies of the animal to the frog problems as well as the conditions the horse is kept in a stable and a paddock.

Dry Hoof Spray

The liquid preparation Dry Hoof Spray for **care of the frog grooves areas and the sole of the hoof**. To be applied each time **after hoof trimming, when picking hooves in horses standing on moist ground, in the case of frog rotting**. The mixture of copper, zinc and aluminum sulphates shows astringent, antiseptic and anti-inflammatory effects. **By eradicating bacteria and fungi, it also removes the unpleasant odor, which accompanies the rotting processes**. Dry Hoof Spray is recommended in the preventive treatment of hooves as well as in advanced cases of frog rotting. An improvement is seen already after 3-4 days of application

Ingredients: Aqua, Aluminum Sulfate, Zinc Sulfate, Copper Sulfate, Magnesium Chloride, Magnesium Nitrate, Methylchloroisothiazolinone, Methylisothiazolinone

Available capacity:

300 ml

Recommended use:

As a treatment: Use on a daily basis for 7 days, and subsequently 2-3 times per week for providing protection of the sole and the hoof frog.

Preventively: apply 1-2 times a week

The preparation should be used depending on the individual tendency of the animal to frog problems and on the conditions, to which the horse is exposed on a daily basis, in the stable and on the paddock.

The preparation is for external use only. Avoid direct contact with the skin. Apply wearing gloves. Protect against frost. Do not use near fire.

in 3-4 days

Hoof Care

The **Strong Step** strengthening gel mask

The Strong Step strengthening gel mask for hooves makes it possible to **maintain the right moisture of hooves while protecting them against external conditions**. Shea butter, lanolin, avocado oil and vitamin E help with elasticity, **prevent hoof fractures and stimulate hoof growth**. The rich content and carefully combined formula ensure thorough care of hooves regardless of the season, protecting them against cold, frost, sunshine and wind. **Thanks to its gel form, the product sticks firmly to the hoof and does not drip when applied. It does not become solid at low temperatures.**

Ingredients: *Petrolatum, Paraffinum Liquidum, Lanolin, Butyrospermum Parkii (Shea) Butter, Persea Gratissima Oil, Tocopheryl Acetate.*

The optimal care of hooves throughout the whole year

- ✓ **rich in content**
- ✓ **the same gel form**
- ✓ **comfortable application**

Available capacity:

500 ml

Recommended use:

Apply on clean and dry hooves. The product should be applied on the hooves' surface using a brush or a sponge. In the form of treatment, use twice a day for a period of 30 days. As prophylaxis, use once per week.

Fly Guard gel

Fly Guard Gel, rich in natural essential oils, helps effectively **prevents horses nervousness caused by the insects**. With its gel formula, it perfectly **protects your horse's sensitive head area and other body parts**. Recommended for horses intolerant of spray repellents. **Does not flow down when sweating**.

It does not cause irritation even in sensitive horses. For use in adult horses and foals. It does not leave any stains.

Ingredients: Aqua, PEG-40 Hydrogenated Castor Oil, Citronellol, Lavandula Angustifolia Oil, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Eucalyptus Globulus Leaf Oil, Limonene, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Triethanolamine, Methylparaben, Propylparaben, Imidazolidinyl Urea

Available capacity:

300 ml

Recommended use:

Apply preventively before letting the horse go to the paddock, in the stable boxes or during training. Squeeze the tube and apply the gel directly onto your horse's skin. Rub the gel with your hand or distribute it using a sponge. Use as often as needed, depending on your horse's activity.

Effectiveness duration: 3-4 hours.

✓ **does not flow down when sweating**

✓ **long lasting fragrance**

✓ **efficacy confirmed in tests**

Skin Care

Fly Guard Natural spray

Combination of natural essential oils eliminates horse sweat odors, which attracts insects. Containing the tea tree oil, Fly Guard Natural Spray **helps stop itch after insect bites.** The product allows you to maintain **optimum conditions for summer training** as well as provides a peaceful existence on the ground, in stables and paddock.

For adult horses and foals use.

Ingredients: Aqua, Alcohol Denat., PEG 40 Hydrogenated Castor Oil, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Lavandula Angustifolia Oil, Citronellal, Pinenes, Imidazolidinyl Urea, Methylparaben, Propylparaben

Safe & effective
fly protection

8 hours

Available capacity:

140 ml, 500 ml, 1000 ml

Recommended use:

Shake before use! Apply on bites and preventively before letting the horse go to the paddock, in the stable boxes or during training. The bites and the areas particularly exposed to insect bites should be sprayed several times from a distance of maximum 20 cm. If necessary, repeat the procedure.

Avoid contact with eyes and mucous membranes. Effectiveness duration could be shorter depending on horse activity.

Mud fever ointment

Black Horse Mud fever ointment **is intended for horses infected with mud fever, eczema, and skin prone to damage.** Specially composed ingredients contribute to comprehensive effect of the preparation. Allantoin and Vaseline content allows for delicate but effective scab removal. Tea tree oil and carefully selected plant extracts **give the treatment antibacterial, anti-inflammatory, antiseptic, and soothing properties.** The unique complex based on aloe and mineral oils aids the process of tissue regeneration and wound healing and repair. After application the preparation forms a thin waterproof layer which provides additional protection for skin.

Ingredients: *Petrolatum, Paraffinum Liquidum, Linum Usitatissimum (Linseed) Seed Oil, Ricinus Communis Seed Oil, Helianthus Annuus Seed Oil, Citrus Grandis Fruit Extract, Chamomilla Recutita Flower Extract, Aloe Barbadensis Leaf Extract, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Cannabis Sativa Seed Oil, CI 26100, Allantoin, Tocopheryl Acetate, BHT, Parfum, Coumarin, Limonene.*

Available capacity:

300 ml, 500 ml

Recommended use:

Apply on clean and dried skin. Apply Black Horse mud fever ointment plentifully over damaged skin and then rub in gently.

In the course of treatment: for the first week twice a day, then once a day until scabs give up, then twice a week until the skin has healed.

Prophylactic use: always before taking the horse out on humid or rainy days.

Preventive use: as required, depending on the condition of skin.

mud fever cured

Skin Care

Eye & Muzzle Wipes

Eye & Muzzle wipes are recommended to **clean delicate horse's head area without any irritations**. Our product gentle and effectively **removes any tears and secretions as well as dust and sand**.

Recommended to use before and after equestrian competitions and shows. Ideal for daily use to **fast and sensitive cleaning and refreshing**.

Ingredients: Aqua, Glycerin, Peg-7 Glyceryl Cocoate, PEG-40 Hydrogenated castor oil, Allantion, Parfum, Methylchloroisothiazolinone, Methylisothiazolinone

Available capacity:

Comfort pack -30 pcs

Recommended use:

Remove the necessary number of tissues and gently wipe the area around the eyes and mouth. Remember to use each tissue only once on desired part of the head.

Tissues, if kept in a closed container, remain moist for a long time.

✓ fast and sensitive cleaning

✓ hydration for sensitive skin

✓ **ideal for competition and shows**

Balm skin serum

Active Balm skin serum formulated to condition horse's skin – especially **areas of epidermis abrasion and damage as well as dried out areas**. A unique combination of active ingredients such as: allantoin, D-Panthenol, natural plant extracts, minerals, and vitamins helped to create a preparation that gives a comprehensive effect. Black Horse serum **soothes skin irritation, relieves pain and skin tension, tones it and speeds up its regeneration process**. It also has anti-inflammatory properties and a thin film formed after application protects it from infections and harmful outside conditions.

Ingredients: Aqua, Mineral Oil, Vaseline, Glycerin, Sorbitan sesquialeate, Microcrystalline Wax, Isopropyl Palmitate, Calendula Officinalis Flower Extract, Chamomilla Recutita (Matricaria) Flower, Sodium Chloride, Oleum Ricini Virginale Oil, Methylparaben, Ethylparaben, Propylparaben, Butylparaben, Isobutylparaben, Phenoxyethanol

Available capacity:

250 ml

Recommended use:

Put serum 2-3 times a day on previously cleaned areas of epidermis abrasion, damage or dried out areas.

 **Gentle cream
formula**

Feed Additives

Easy Calm

complementary feed for horses

The mixed Easy Calm horse feed **for use in horses in stressful situations or with magnesium deficiency**. Thanks to the high content of magnesium and the B group vitamins it effectively **regenerates the nervous system, decreases hyperactivity, eliminates convulsions and supports concentration of the horse before competition**. Eliminates stress resulting from transportation and changed environment. Does not cause sluggishness. Easy Calm may be used also in the case of digestive tract problems, due to the anti-diarrheal effect of magnesium as well as a supportive agent in cardiovascular issues. **The product is further enriched with melissa extract. High content of magnesium in each dose.**

Ingredients: Vitamin B1, Vitamin B2, Vitamin B6, Vitamin 12, Magnesium, Melissa Extract

Available capacity:

1000 ml

Recommended use:

Shake before use. The preparation should be carefully mixed with water and/or fodder. In order to obtain optimal effects, administer on a daily basis for a period of 2-4 weeks.

Daily dosage:

Adult horses (500 kg): 20-30 ml

Light horses, ponies: 10-15 ml

In the case of on demand application (e.g. before a competition) increase the dosage to 50 ml and administer over a period of 5-7 days

Supplements
magnesium deficiency

Biotin Max

complementary feed for horses

The preparation is suitable for use in horses with brittle and fragile hooves, without shiny coat. Owing to carefully selected proportions of biotin and zinc, **BIOTIN Max ensures the proper structure, development and forming of the hoof horn and also improves the hair look and nourishes it, preventing hair loss.** Due to high biotin content, the restoration of the epidermis is improved. **Biotin**, contained in the preparation, accelerates the recovery of the pulp and the subcutaneous layer of the hoof, which leads to **improved elasticity and toughness to prevent fractures.** **Zinc** protects the tissues against the harmful effects of free radicals and ensures the **protection of hooves against the mechanical and chemical factors.**

Ingredients: Biotin, Zinc

Available capacity:

1000 ml

Recommended use:

The preparation should be carefully mixed with water and/or fodder. In order to obtain optimal effects, administer on a daily basis for a period of 3-6 months.

Daily dosage:

Adult horses: 15-20 ml

Farm mares: 10-15 ml

Foals & Young horses: 5-15 ml (5 ml per 150 kg body mass)

High **Biotin** content
in each dose

Feed Additives

Equi Vit

complementary feed for horses

The Equi Vit vitamin preparation **supplements vitamin and micronutrients necessary for the proper functioning of the horse's body**. It ensures good stamina, increases efficiency and strengthens immunity. Through a balanced content of active ingredients, the preparation has a **beneficial effect on the functioning of the reproductive, muscular, nervous, immune, skeletal systems and metabolic changes**. A complete set of vitamins for use during the periods of increased trainings and competitions. The preparation **may be used in the event of the horse's illness, in connection with transport, fodder change, as well as in young horses in the period of rapid growth and development**. Also recommended for pregnant and lactating mares.

Ingredients: Vitamin A, Vitamin D3, Vitamin E, Vitamin K3, Vitamin B1, Vitamin B2, Vitamin B6, Vitamin B12, Vitamin C, Biotin, Choline, Folic Acid, Niacin

Available capacity:

1000 ml

Recommended use:

The preparation should be carefully mixed with water and/or fodder. Gives as dietary supplement.

Daily dosage:

Pleasure horses: 5-10 ml

Athletic horses: 10-15 ml

Farm mares: 10-15 ml

Foals & Young horses: 5-15 ml

Complete **vitamin**
content

Hydra Star

dietary feed for horses

Hydra Star liquid feed supplement **remedies water and minerals deficiencies (sodium, potassium, chlorine) resulting from excessive sweating.** Carefully selected active ingredients, matching the structure of horse sweat, **reduce the time necessary for your horse to recover,** stimulate regeneration processes and guarantee high performance, also during lengthy exercise.

Contains betaine, performing osmoregulatory functions, sorbitol, which is a great energy source, and vitamin C offering anti-stress and regenerative effects. Chelated micronutrients guarantee **high absorption and assimilation levels.** **Always make sure that your horse has access to fresh, clean water.**

Ingredients: Aqua, Sodium Chloride Potassium Chloride, Calcium Chloride, Magnesium Chloride

Available capacity:

1000 ml

Recommended use:

The preparation should be carefully mixed with water and/or fodder. Administer over a period of 1-3 days, in exceptional cases up to 5 days if necessary.

Daily dosage:

Recommended dose: 50 ml.

In case of strong effort you can give a few doses.

Do not give more than 500 ml per day.

i *Full regeneration in a few hours*

Leather Care

Cleaning leather spray & foam

Cleaning leather spray&foam **perfectly removes dirt, dust, sweat and salt from the leather surfaces** such as saddles, bridles, boots, etc. Prevents stains and mould. **It does not leave greasy marks. Systematically used with shining leather polish ensures optimum leather condition for many years.**

Ingredients: Aqua, Isopropyl Alcohol, Sodium Lauroyl Sarcosinate, Parfum, Disodium EDTA, Methylchloroisothiazolinone, Methylisothiazolinone.

„I used the foam to clean the western saddle, where there is a lot of convexities and decorations. Thanks to the application in the form of a spray and foam, I managed to clean hard-to-reach places. I liked the pleasant coconut smell.„

Kate, owner of several horses, tester of Black Horse products

Available capacity:

500 ml

Recommended use:

Shake before use. Spray leather surface with a small amount of the product. Leave it on for a moment. After that time, remove the foam with a dry rag or paper towel. Repeat if needed.

Thanks to the **2 in 1 formula** product can be used as a foam to remove stronger dirt as well as spray to clean minor grime. In case of using spray, please stick up straines from the trigger.

To achieve optimal result protect cleaned leather surfaces using shining leather polish by Black Horse.

Shining leather polish

Shining leather polish **restores leather sheen and improves its condition.** Leather stays nourished, supple and soft. Through the composition of active elements such as lanolin, beeswax and almond oil **polish deeply penetrates the leather and maintains it smooth and flexible.** The preparation **prevents leather cracking and protects it from moisture and dirt.** Used regularly ensures impeccable appearance of saddles and harnesses **for a long time. It leaves no greasy traces.** Ideal for new, fine or saturated leather.

Ingredients: Petrolatum, Mineral Oil, Sweet Almond Oil, Bees Wax, Lanolin, Parfum

Available capacity:

250 ml

Recommended use:

Apply the polish sparingly to clean leather with a cloth or sponge and rub in. Leave to penetrate into the leather and then buff to a shine with a soft, dry cloth. Do not use on dirty leather, nubuck or suede.

Test on a hidden area before use.

Excellent leather look
recognized by the saddlers
and saddle fitters

Leather care oil

Saddlery and harness oil is intended particularly for the **maintenance of the new as well as the dried and long-neglected products**. Thanks to the high content of mineral oils and macadamia oil, the **oil makes the leather flexible and nourishes it, leaving a water-resistant protective layer on its surface**. It restores the softness and elasticity of the leather as well as improves its durability.

Ingredients: *Paraffinum Liquidum, Macadamia Integrifolia Seed Oil, Caprylic /Capric Triglyceride, Tocopheryl Acetate*

✓ **daily care of new products**
✓ **maintenance of damaged and dried skin**

Available capacity:

500 ml

Recommended use:

Apply the oil evenly on a previously cleaned surface. Use a brush to rub the product into the seams. Then rub the oil into the whole saddle with a sponge, starting from the panels. Afterwards it is advised to wait few hours before using the equipment.

Before the first use of the oil for brown leather, particularly for the new and for the light one, make a test by applying a small amount of the product on an invisible part of the saddle
